We have experience providing furniture and consultancy across:

- Central Government Departments
- Non-Departmental Public Bodies
- Local Authorities (County, Borough, District)
- Blue Light Services
- Healthcare environments
- Third Sector

WHO HAVE WE DELIVERED FOR?

01

WE SEE THE BIGGER PICTURE OF WORKPLACE CHANGE

New furniture alone is rarely the answer – we know that. We take a holistic view of spaces, people and technology, helping to create workplaces where employees can thrive.

02

WE DELIVER ON BRIEF, ON BUDGET AND ON TIME

We are renowned for outstanding customer service. We've reliably served organisations since 1942 – and we're now Europe's largest office furniture manufacturer.

03

WE ARE SERIOUS ABOUT SUSTAINABILITY

We let nothing go to waste - something we call inclusive design. From the materials we use to the way we pack and transport them, protection of the environment lies at the heart of what we do.

04

WE TAKE CHARGE OF THE WHOLE CHAIN

No outsourcing or sub-contracting – we take responsibility for the entire value chain: from development, procurement and production, to delivery and installation.

05

WE TAKE A SCANDINAVIAN APPROACH TO DESIGN

Ergonomically-driven. Aesthetically-pleasing. Reliably-made. We adopt a Scandinavian approach to furniture design - a perfect match for the public sector.
